Career Summary

Motivated Computer Science undergrad with expertise in building scalable full-stack applications using React, React Native, Next.js, and Node.js. Skilled in team leadership, workflow automation, and delivering production-ready solutions with JavaScript, TypeScript, Python, and cloud technologies.

Education

Dr. APJ Abdul Kalam Technical University (AKTU)

Bachelor of Technology in Computer Science (CGPA of 8.4)

Ghaziabad, India

November 2022 – Present

Certifications

- Certified in Core Java from **IIT Kharagpur** (12-week project-based program).
- Certified in Personality Development from **IIT Kanpur**, emphasizing leadership and communication skills.
- Enrolled in a hands-on **Machine Learning** program, completing projects in data preprocessing, model training, and optimization with Python and Scikit-learn.

Technical Skills

- **Programming Languages:** Python, JavaScript (ES6+), TypeScript, Java, C++, HTML, CSS
- **Frameworks & Libraries:** React.js, React Native, Next.js, Express.js, NestJS, Tkinter, Node.js
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Figma, Firebase, Make.com, Vercel, Docker
- **Cloud & DevOps:** GitHub Actions, Render, Netlify, AWS, Microservices

Experience

Finch(Trivy Technologies)

March 2025 – April 2025

Full-Stack Developer

Remote

- Transformed company website and payment app as Full-Stack Developer with Next.js and React Native, building Travr MVP with Uber API, delivering core features in 3 weeks using agile methods, and enhancing backend performance with a 20% faster API response time via optimized queries.

Valenceware

September 2024 – October 2024

Software Developer

Remote

- Developed a full-featured grocery delivery platform with React Native and Firebase, featuring real-time order tracking and secure Razorpay integration, while deploying scalable apps for **50+ vendors** and **500+ users**, achieving **99.9%** uptime using serverless architecture.

HireOnIt

June 2024 – July 2024

Full-Stack Developer

Remote

- Built job tracking platform with Next.js, TypeScript, and MongoDB, featuring analytics dashboards..
- Automated hiring workflows using Vapi, reducing manual tasks by **40%** through workflow orchestration.

Leadership

Cloud Computing Cell

October 2023 – Ongoing

Coordinator and Full Stack Developer

On-site

- Led a 35-member Cloud Computing Cell to organize cloud, React.js, Python, and AWS events, boosting engagement by 40%.
- Drove tech adoption among **150+ students** through hands-on initiatives and modern practices.

Projects

Kick

GitHub: [Frontend](#) | [Backend](#)

- Engineered an e-commerce mobile app using React Native, Node.js, and MongoDB, with JWT authentication and real-time order tracking functionality.
- Optimized RESTful API performance by **30%** through query indexing and caching strategies.

Quiz App

[Github Link](#)

- Developed a real-time quiz platform with Next.js and Tailwind CSS, deployed for **100+ users** at Nimbus Tech Fest.
- Integrated secure quiz sessions with a real-time leaderboard, increasing system reliability and reducing response time by **30%**.
